

Titanium Injection Molding Process

Our unique and robust manufacturing method results in specialized titanium components that meet the industry's most exacting standards of quality and precision:

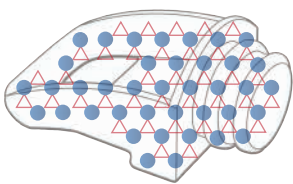

1. Feedstock Formation

2. Injection Molding

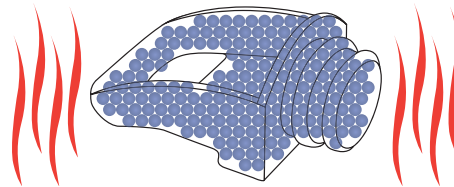

3. Debinding

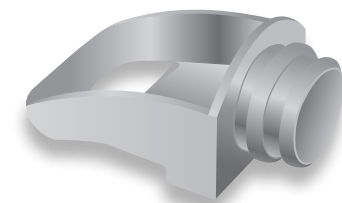

BINDER EXTRACTED FROM FEEDSTOCK

4. Thermal Processing Sintering + HIP'ing

TITANIUM POWDER DENSIFIED

5. Finished Part

604 Queensbury Avenue • Queensbury, NY 12804
Telephone: 518-812-0112 • www.praxisti.com

Optional, Secondary Processing

Machining, surface finishing, cleaning, passivation or laser marking
